## Skills

Adobe Photoshop

Adobe illustrator

Adobe Premier Pro

Adobe Indesign

Figma

---

## Projects

### Social Media Content and Management

Worked for the brand called "Yoga Disha". I managed the Instagram account, created various types of content like reels, posts, videos. I shot the content and managed the account as well. The account is named "Yogic\_Atul" on instagram.

### Brand Creation

Created a brand named "Hawtdrop" (Hotdrop). It is a quick commerce brand, like Blinkit, but for fashion. I created mockups and campaigns like packaging, billboard design, wall graffiti and playlist cards. The brand stood for boldness.

### Card Game Design

Made a card game from scratch which is based on typography. It is a guessing game called "The Provenance" where the players have to guess the different fonts. Designed and made the packaging.

---

## Education

### Dr. Sarvepalli Radhakrishnan International School
